School Division No. 32 Receives Health Report

Trustees present were: H. E. Spencer, T. C. Sanders, F. E. Dixon, W. Lawson, C. Dallyn.

Moved by Mr. Dallyn that the minutes of the last meeting be adopted. Carried.

Moved by Mr. Lawson that a limited power of attorney be granted to Mr. Coutts to sign cheques in place of the secretary until such time as he is able to resume his duties. Cd.

Moved by Mr. Dixon that we write to the Department of Education indicating our anticipated needs for equipment for dormitory purposes when such equipment is made available by the Dominion Government at the figures quoted. Cd.

Moved by Mr. Spencer that the request of Miss Wakefield for permission to leave to write the Biology examination be granted, and that arrangements for the operation of the Albert school on the day required be left in the hands of the superintendent. Cd.

Moved by Mr. Sanders that we order 1,000 treated posts and 100 treated braces from Mr. D. C. Daly of Edgerton. Cd.

Moved by Mr. Spencer that we accept the resignation of Mrs. Grace Snyder from the staff of the Division. Cd.

Moved by Mr. Sanders that we adjourn until 1:30 p.m.

Moved by Mr. Spencer that the agreement between the Wainwright School Division No. 32 and the Wainwright School District No. 1655 as drawn up by the joint committee be approved, signed and sealed. Cd.

Moved by Mr. Dixon that the superintendent's report be adopted.

Moved by Mr. Lawson that regular payments for V-E Day be made to all teachers of the Division. Cd.

Moved by Mr. Spencer that the report of the Public Health Nurse be adopted as follows:

School pupils exam. past month	333
With defects	245
Water samples analyzed	15
With contamination	0
Health Literature Distributed	150
Home visits made	14
Scarlet fever reinforcements in schools	87
Saturday morning clinics:	
Children examined	3
Scarlet fever inoculations	24
Whooping cough and diphtheria inoculations	1
Small pox vaccinations	4

Notification of examination has been sent to parents of all pupils examined.

Signed—Vern Rowe, P.H.N. Cd.

Moved by Mr. Sanders that the recommendation of the Public Health Nurse with respect to vitamin capsules be adopted. Cd.

Moved by Mr. Sanders that the office look after the sale of the Old School at the Ribstone S.D. No. 1629 less lumber piled on the grounds. Cd.

Moved by Mr. Dixon that the report of the utility man be adopted.

Moved by Mr. Dixon that we present plans 20-38 and 22-39 for the consideration of the Local Board of Greenshields S.D. No. 1816, and that when a decision has been made that application be made to the Building Controller, Ottawa, for permission to build and to the Department of Education for official plans and approval. Cd.

Moved by Mr. Sanders that the accounts in the amount of \$13,462.85 be paid and recorded in the minutes.

Moved by Mr. Dixon that we publish tenders for the sale of the Arm

Sea Cadet Day of Remembrance Sunday, June 3rd

Next Sunday, June 3rd is to be observed throughout Canada in the Royal Canadian Sea Cadet Corps as SEA CADET DAY OF REMEMBRANCE. It will be the first time that the entire strength of 15,000 Cadets have held a national observance and it will be in honour and memory of those, in all branches of the active forces, "who will not return". It will be the Sea Cadets way of paying tribute not only to the former-cadets who have given their lives but to everyone from Canada who made the supreme sacrifice.

From the very beginning of hostilities the Sea Cadets have been closely associated with the European war. Former Cadets were among the first to volunteer for sea duty and as the Battle of the Atlantic progressed, the need for more and more men with seamanship training became apparent. Official eyes were turned towards the Navy League as sponsors of the Sea Cadets and the league in turn accepted the responsibility of increasing the number of corps and their personnel to meet the ever-growing demands.

From 3,000 Cadets and Officers, the movement expanded until there are now 93 corps from Charlotte-Town P.E.I. to Victoria B.C. with a total complement of more than 15,000. Meantime some 8,500 enlisted. Well over 6,000 joined the Navy nearly 1,200 became Merchant Seamen, 680 joined the Army and 255 signed up with the air force.

The Wainwright Sea Cadet Corps will attend the Remembrance Day Service at St. Andrews Presbyterian Church at 11:00 a.m., Sunday, June 3rd (being the Kings Birthday).

Ships Company will fall in at the Public School Grounds at 10:30 a.m. and proceed to St. Andrews Presbyterian Church where the ships colors will be received by the Rev. A. R. Hancock and where the Memorial Service will be held.

All Roman Catholic Cadets will assemble in front of the Convent at 9:15 and proceed to the Sacred Heart Church for the 9:30 Mass where special mention of Sea Cadet Remembrance Day will be made by Rev. Father Ehmann.

Parents of Sea Cadets and of former Sea Cadets who enlisted for Active Service are especially invited to attend these services to pay tribute to all of Canada's sons "who will not return".

Wedding Bells For Local Boy

MICHON—GORDON

At a pretty wedding ceremony at S.S. Peter and Paul R.C. Church, Dundee, Scotland, Miss Jean Gordon, elder daughter of Mr. and Mrs. G. P. Gordon, 8 Byron Cres., Dundee became the bride of Robert Arthur Michon, R.C.S.C. Canadian Army, youngest son of Mr. and Mrs. O. L. Michon of Wainwright, Alberta.

The ceremony was performed on Wednesday, April 11th, 1945 with Rev. Father McGee officiating. Miss Sheila Gordon, sister of the bride acted as bridesmaid. Marcelle (Mickey) Michon of Wainwright who is with the Canadian Army overseas supported his brother as best man.

Later a reception was held at the home of the bride's parents to the family and close friends; after which the happy couple left for a short honeymoon at Edinburgh, Scotland. The groom will join his unit on his return.

Wainwright Sea Cadets Hold Annual Inspection

The Annual Inspection of the Royal Canadian Sea Cadets Corps "EXETER" was made at the Public School grounds on Tuesday evening, May 22nd, 1945 by Lieut. Cdr. J. A. Dawson, Commanding Officer H.M.C.S. "NONSUCH" Edmonton, Sub. Lieut. R. Tamlyn R.C.N.V.R. accompanied the inspecting officer.

At 1900 the ships company were mustered into 4 Divisions including 12 Cadets forming a guard of honour, the usual routine of Divisions and Flag raising ceremony was carried out. At 1930 the Inspecting Officers were received by Lieut. Wilbraham Commanding Officer of the "EXETER" and inspection of the ships company in ranks was carried out under Naval regulations. Permission to march past was granted, the cadets marching past in line, the salute being taken by Lieut. Cdr. Dawson who was accompanied by Mr. J. A. MacKenzie K.C., chairman of the Sea Cadet committee at the saluting base.

By kind permission of Major Thomson the pipe band of the Veterans Guard of Canada stationed at the Wainwright Camp played several selections during the inspection of ranks and for the march past. March past being completed permission was granted to carry on with classes, which consisted of rifle drill, semaphore and seamanship, the inspecting officer questioning the cadets at their work.

Checking of all records, stores and gear completed the rounds and evening quarters in true naval ceremony concluded the inspection.

Lieut. Cdr. Dawson expressed his approval in dress, manner and efficiency of the cadets and a favorable report is anticipated.

An additional Division has been added to the Corps this year, in the recruiting of eight Wrens, who are in charge of all records and stores, while at the present time Sea Cadet Wrens are not recognized by Naval service they certainly have proved an asset to the corps, some consideration is being given to the addition of the Wren Division.

Wainwright Officers taking part in the inspection included Lieut. Finlay, Executive Officer and Lieut. Coutts, Training Officer. About 125 parents and friends witnessed the Ceremony, the members of the Wainwright Sea Cadet Committee are Mr. J. A. MacKenzie, Chairman; Messrs. Conroy, Graham, Horn, Crawford, Buckton and Corp. Beeching, R.C.M.P.

More Questions About Family Allowances

Q.—Should Eskimos register?
A.—Yes. Forms will be sent to the official registrars of vital statistics in the areas where Eskimos live. They will conduct the registrations.

Q.—How should people who cannot write fill in their forms?
A.—The registration form should be completed for them and they should sign by making their mark in the presence of two witnesses.

Q.—What about children born after the initial registration?
A.—Their births should be immediately registered with the Provincial Vital Statistics authorities in the usual way, and registration should also be made on a form obtained from the Regional Director of Family Allowances, or local post office. The form should be completed and mailed to the Regional Director of Family Allowances in your province.

Q.—Are birth certificates required in these cases?
A.—No. Registrations will be checked against provincial records of births.

Q.—Do deaths have to be reported?
A.—Yes. Regional Directors of Family Allowances should be notified at once. Deaths should also be registered in the usual way with provincial authorities.

Q.—How and when will payment be made?
A.—Payment will be made by cheque each month from the Dominion Treasury. The first cheques will be issued during the month of July.

Q.—To whom will the cheques be payable?
A.—It is expected that the payment will be made in most cases to the mother.

Q.—Will there be one cheque for each child or one cheque for the entire family?
A.—One cheque for the entire family.

Q.—What should be done when a cheque is not received?
A.—Immediate notification should be given to the Regional Director of Family Allowances in your province.

Q.—Will a family allowance be paid for a child above the age of 6 who is not attending school?
A.—Under the Family Allowances Act the allowance is not payable in respect of a child who, being above the age of six years and physically fit to attend school, fails to attend school or to receive equivalent training.

Q.—Will family allowances be paid to any person whose children are not mainly dependent on him for support?
A.—No.

Q.—Are adopted children included?
A.—Yes. Adopted children are treated just like other children. In fact there does not need to be any legal adoption provided the person is actually maintaining the child.

Q.—Are allowances to be paid to institutions?
A.—No. The purpose of the Act is to help parents provide properly for the health and welfare of their children. Where, however, a parent is supporting a child in an institution the parent will be paid the allowance.

Q.—Will family allowances be paid even if a person is receiving mothers allowances, dependents' allowances, war pensions, merchant marine allowances, rehabilitation grants, unemployment insurance, and work-mens compensation?
A.—Yes.

Q.—Can children living elsewhere move to Canada and receive the allowance immediately?
A.—No. They must have lived in Canada for at least three years except for the children of Canadian service men or women and the children of Canadians temporarily out of Canada.

Q.—Do the children of a Canadian service man or woman overseas get an allowance upon their return to Canada?
A.—Yes. Children of any Canadian man or woman serving overseas get an allowance immediately upon their taking up residence in Canada. So do the children of Canadians who have been temporarily out of Canada on business, war work or the like. No allowance will be paid except to a resident of Canada.

Q.—How can we know the money will be used for the children?
A.—The great majority of Canadian parents can be trusted to see that the money is used for their children. Experience has shown that over 97 per cent of the 600,000

wives and mothers receiving dependents' allowances are able to administer their own allowances. A very few are being guided by social agencies.

Studies have been made on the expenditure of cash relief during the depression. In both Canada and the United States it was found that only a very small percentage spent money unwisely. Some estimates are as low as one per cent.

Q.—What is going to be done about the small percentage who misuse the allowance?
A.—If the money is wrongfully used, the matter will be reported to the Director of Family Allowances. If on investigation it is established as desirable, payment will be made to someone who will handle the money for the benefit of the child.

Q.—How are the investigations to be made in cases where it is claimed that the money is not being properly spent?
A.—This may vary from province to province depending on arrangements that can be made so as to do this job most efficiently and economically and in the best interests of the child. In most provinces it is hoped that it may be done through existing agencies. In some cases it may be necessary to employ special personnel.

Q.—If any person feels that there has been any injustice done him regarding his right to receive the allowance, the amount of the allowance, or any other matter, what can he do?
A.—He can appeal to a tribunal which will be set up for this purpose.

Q.—What kind of tribunal will this be?
A.—It will be a committee of men and women qualified by experience and character to make fair decisions.

Q.—Will the information given in the registration form be treated in confidence?
A.—Yes. Provision is made in the regulations against disclosing information.

Mr. Henry Swanson Dies in Edmonton

Mr. Henry Swanson passed away quietly at the home of his brother Albert in Edmonton early Tuesday morning, May 22nd. His death came as somewhat of a shock as he seemed to be recovering satisfactorily after a recent attack of flu and pleurisy.

Born in Maud, near Aberdeen in Scotland in December 1905, the deceased was 39 years of age. He came with his parents to Davidson, Sask., while still quite young, and later in 1926 to Wainwright where he has lived since. Henry (as he was known to all) was a well known resident of Wainwright having owned the Taxi Business here for several years.

Besides his mother and father Mr. and Mrs. A. Swanson of Winnipeg; he leaves to mourn two sisters, Margaret (Mrs. O. Alexander) Wainwright, Hilda (Mrs. T. B. Corry) Oida and two brothers, Alex at Wainwright and Albert at Edmonton. An uncle Mr. Murdoch Cameron, Winnipeg and a cousin Mrs. Durk Bladworth, Sask., were both in town to attend the funeral.

Foster and McGarvey had charge of the arrangements in Edmonton and Mr. and Mrs. Albert Swanson accompanied the remains to Wainwright where McLeod's funeral parlors were in charge of the funeral.

The funeral was held from St. Andrews (Pres.) Church on Friday, May 25th at 2:00 p.m. with Rev. A. R. Hancock officiating. The pallbearers were: Messrs Reg. Lismore, Guy Pigeon, A. Gehring, Bob Smith, Al Keefe and H. Gullekson.

The following floral tributes were received: Mother and Dad; Alec, Eureka & Marlene; Margaret, Oliver & Boys; Alberta, Sadie & Hilda; Mrs. Mary Durk & Ken; Mr. and Mrs. Ben Crabb & Lillian; Bob Smith; Elsie and Bob Haywood; Eric McLean; Mr. and Mrs. V. Little; Mr. and Mrs. H. Gullekson; Mr. and Mrs. Attewell & Family; Maude and Teddy Ware; J. A. Johnson; Mrs. Hill & Family; Hutchison Family, Edmonton; Mrs. Nelson, Charlie & Carrie; Ina, Bob & Fraser; Ed and Ellen; Bob and Cora; Mr. and Mrs. T. Lismore & Reg.; Mr. and Mrs. W. Skinner and Fred; Buffalo Service Station & Staff; Wainwright Hotel Management Staff; Staff of Selkirk Mental Hospital.

Local Boy Safe in England

A most welcome telegram reached Mr. and Mrs. Jack Tolmie, on Monday afternoon, stating that their son, Roy was back safe in England.

The wire read:

Pleased to advise you that your son, W.O. class 1, John Roy Tolmie, previously reported a prisoner of war, arrived in the United Kingdom, May 24.

Casualty Officer, R.C.A.F.

It has been some time since Roy left Wainwright, as he enlisted September 29, 1939, immediately after the war broke out. After taking part of his training in Canada, he was sent overseas in December of 1941. For a year, he was sent out on operations, but on the night of December 9, 1942, on a operational tour, he and his crew were forced down in occupied territory and were held as prisoners until May of this year.

During this time as a prisoner of war, he was stationed in different P.O.W. camps in Germany. With the falling of Germany it was feared that he might have been one of the unfortunate boys that met with ill fate at the hands of the Germans.

Wainwright and district has waited for a long time for the word to come through, of Roy's safety and now extend their congratulations to the Tolmie family on the notification of such good word.

Local Elks Will Hold Trans-Canada Ball

In common with Elks Lodges across the Dominion, the local B.P. O.E. will hold a Trans-Canada Ball in the Separate School hall on Friday, June 1st. The total gross proceeds of all these dances will be donated to the "Save the Children Fund", to help carry on work among the orphaned and bombed-out children of Great Britain. This work has lately been extended to the continent of Europe as well.

The dance will have the local Wainwright orchestra playing from 9:30 until the wee small hours in the morning. Advance tickets are now on sale and are obtainable from any member of the Elks Lodge.

Hon. Capt. Ehmann Loses Nephew in Sask.

The following account appeared in the Leader Post, Regina, Sask., of the death and funeral of Sgt. Alphonse B. Ehmann, nephew of Rev. Father J. P. Ehmann of Wainwright.

EHMANN—On Friday, May 18, Sgt. Alphonse B. Ehmann, dearly beloved son of Mr. and Mrs. Robert Ehmann, Holdfast, passed away, aged 24 years. Funeral services will be held on Thursday, May 24, from the Assumption Church, Holdfast, at 10:00 a.m. Hon. Capt. J. P. Ehmann of Wainwright, uncle of the deceased, will officiate, and burial will be in Holdfast cemetery. Arrangements in care of Speers Funeral Home.

Father Ehmann left last week for Holdfast, Sask., to officiate at the funeral and returned home on Friday last.

CARD OF THANKS

We wish to thank our kind friends and neighbors for their acts of love and sympathy during our recent loss and brother and also extend grateful thanks for the beautiful floral tributes to our loved one.

Greenshield's Resident Bereaved of Wife

An old time resident of the Greenshields district passed away at her home on Thursday, May 24th, in the person of Mrs. Theresa Ann Morrow.

Mrs. Morrow was born in Ontario in 1881. She came west with her husband in 1911, thirty-four years ago and settled in the district where she has lived until her demise. She leaves to mourn her husband Mr. W. Morrow.

The funeral was held Saturday, May 26th at 10:00 a.m. from the Church of the Blessed Sacrament with Rev. Father Ehmann officiating. McLeod's funeral parlors had charge of arrangements, and those acting as pallbearers were G. Leduc, J. Stinert, D. Rajotte, L. Leduc, A. Girard and L. Lapierre.

There were no flowers by request.

Mass Cards were received from the following: Mrs. T. Madkins; The Ladies Aid of Blessed Sacrament; Mr. and Mrs. R. Legace; Mr. and Mrs. J. A. MacKenzie; Mr. and Mrs. G. Conroy and Family; Mr. and Mrs. S. Rajotte, Mrs. M. McIntee, Sr.; Mr. and Mrs. Avila Touchette; Mrs. Pat O'Reilly; Mr. and Mrs. L. Lapierre; Mr. and Mrs. L. Leduc and Mr. and Mrs. A. Treffrey.

ANNOUNCEMENT

Mr. and Mrs. A. P. Voros, of Wainwright, Alta., wish to announce the engagement of their youngest daughter, Rose to F/O Edward J. Panchysyn, R.C.A.F., only son of the late Mr. J. Panchysyn, and Mrs. Panchysyn, who resides in Edmonton.

TIME—8:30 p.m.

Hints for the Household

TONGUE, COOKED WITH SKILL AND CARE, IS A LUXURY DISH

It's hard always to get variety in meals and that is particularly true of the meat course. When this is the case, it's a good plan to try one of the variety meats and introduce an entirely new note into the meal.

Tongue belongs to the family of "Variety Meats". It is reasonable in price and boneless. Therefore it is an economical buy.

Since tongue is classed as a tough meat it requires long, slow cooking in moist heat. It is just as nutritious as the more highly priced meats, and when properly cooked and skillfully seasoned, it is every bit as appetizing as roast or steak.

Beef tongue may be purchased fresh, pickled or smoked.

The home economists of the Consumer Section, Dominion Department of Agriculture, offer the following excellent recipes for tongue:

Boiled Fresh Tongue

- 1 fresh beef tongue, 4-5 lb.
- 4 quarts boiling water
- 1 clove garlic (if desired)
- 2 stalks celery
- 1 onion, peeled and sliced
- 1 carrot

- 1/2 cup vinegar
- 2 tablespoons granulated sugar
- 2 teaspoons salt

Wash tongue well and place in covered kettle. Add the water, garlic, celery, onion, carrot, vinegar, sugar and salt. Cover and simmer for about 3 1/2 to 4 hours, or until a fork pierces the tongue easily. Let tongue cool in liquor for at least 1 hour. Remove, take off skin and trim excess tissue and small bones at root end.

NOTE: If pickled tongue is used, soak in cold water for several hours or overnight. Bring to boiling point and drain. Continue cooking as above, omitting salt.

Glass for Beef Tongue

- 1 teaspoon dry mustard
- 3 tablespoons brown sugar
- Few grains cayenne pepper
- 1/2 teaspoon curry powder
- 3 tablespoons water
- 2 tablespoons vinegar
- 1/3 cup tomato catsup

Mix together the mustard, sugar, cayenne pepper and curry powder.

Blend in the water, vinegar and catsup. Pour over cooked tongue.

Tongue Casserole

- 12 slices cooked tongue

- 2 medium onions, sliced
- 3 carrots diced
- 3 potatoes diced
- 2/3 cup green peas
- 4 tablespoons flour
- 1 1/2 cups stock from tongue
- 1/2 teaspoon salt
- 1/4 teaspoon pepper
- 1 teaspoon horseradish
- 1/4 cup catsup or chili sauce

Arrange slices of cooked tongue in the bottom of a large casserole and cover with vegetables. Make a gravy of flour and stock. Add salt, pepper, horseradish and catsup. Pour over meat and vegetables. Cover and bake for 1 hour at 350°F. Six servings.

Is there any thing more delicious than home cured hams when they are properly cooked?

They are usually very salty so it is wise before cooking to cover with cold water and to soak over-night.

After soaking, drain and cook in fresh water to cover, allowing 25 to 30 minutes per pound. Keep the pot closely covered and the water just simmering. Fast boiling toughens the meat.

Virginia Ham

Cook as above and when tender, remove skin, score the fat surface in squares or diamonds. Cover the scored fat with the following mixture.

- 1 cup applesauce
- 1 teaspoon mustard
- 2 tablespoons brown sugar
- 2 tablespoons flour

Stick cloves in each diamond. Bake ham at 400°F for 15 minutes or until nicely browned. A 10 to 12

pound ham serves 20 to 24 persons.

ADEQUATE BREAKFAST TO THE FOLE

To add new interest for your family, did you ever set your breakfast table, buffet, etc.? Have a plate of assorted fruits so that each may take his choice. Also serve a large wooden bowl of assorted breakfast foods so that each member of the family can create a cereal "medley." Later, serve muffins with a whole grain value—tender, delicious, tasty and easy to make. There are such muffins (see recipe below) which take the menu out of the ordinary class.

Breakfast is an economical and delightful way to entertain. Here's a suggestion for a midsingh for your next breakfast party. "Salmon Savories." No preparation of bread crumbs is necessary for a crisp crust. Post Toasties will do the trick.

Bran Molasses Muffins

- 1/2 cup sifted flour
- 2 1/2 teaspoons double-acting baking powder
- 1/2 teaspoon salt
- 1 egg, well beaten
- 2/3 cup milk
- 1/4 cup molasses
- 3 tablespoons melted butter or other shortening
- 1 1/2 cups 40% bran flakes

Sift flour once, measure, add baking powder and salt, and sift again. Combine egg, milk, and molasses. Add to flour mixture, add shortening, then mix only to dampen flour. Fold in cereal. Fill greased muffin pans 2/3 full. Bake in hot oven (425°F.) 15 to 20 minutes, or until done. Makes 8 large muffins.

FRUITED BRAN MUFFINS: Add 1/4 cup raisins or finely chopped dates to flour mixture.

NOTE: 1/2 cup water may be substituted for 2/3 cup milk in above.

Salmon Savories

- 1 1/2 cups Post Toasties
- 1 cup flaked canned salmon
- 1/4 teaspoon salt
- Dash of pepper
- 1/2 teaspoon Worcestershire sauce
- 1/2 teaspoon scraped onion
- 1 egg, beaten with 4 tablespoons milk and dash of salt

Crush 1 1/2 cups Toasties. Add salmon, seasonings, onion, and 2 tablespoons egg mixture, mixing well. Shape into 2-inch cakes. Roll in additional Toasties, slightly crushed; then in remaining egg mixture; and roll again in Toasties. Fry in skillet in small amount of fat, browning both sides. Serve with celery sauce or creamed peas. Makes 8 savories.

TOMATOES ARE INDISPENSIBLE FOR VITAMINS & FLAVOUR

Canned tomatoes, home or commercial varieties, either whole or as juice, can improve many meals. For cooking purposes too they are indispensable and can be used hot or cold, "as is", or combined with other foods.

At one time tomatoes were not considered edible, then for a time they were used sparingly. Today they are one of the most popular vegetables which come to the table.

Of all the ways in which they are used tomato sauce is one of the best.

Hot Tomato Cocktail

- 2 cups tomato juice

it's a long winter mister

The men now working in Western mines are looking for your order for next winter's coal. Unless you buy your full requirement for next winter immediately, these men will have to take on other jobs. See your dealer at once.

Equality of Service and Sacrifice!

The King Manpower Policy —

"The Greatest Hoax ever perpetrated on a Nation."

"It is a national disgrace and a blight upon the good name of Canadian citizenship. To give political considerations priority over the nation's interest is intolerable and unforgivable."

John Bracken

Dominion-wide disunity is today the gravest danger facing Canada. The political abasement of the King Government's Manpower Policy reaped in wartime the seeds it sowed in peacetime.

"King or Chaos" of the 1940 election campaign has been King AND Chaos ever since. National unity, to which the King Government has paid only lip-service, was sold for political advantage in time of gravest national emergency.

THE PRICE CANADA HAS PAID for the unequal burdens of the King Manpower Policy is beyond measure. Army statistics tell the story. Tragically, the casualty lists bear mute witness to it.

THE PROGRESSIVE CONSERVATIVE PARTY HAS CONSISTENTLY CONDEMNED THE INJUSTICE OF A

PURELY POLITICAL MANPOWER POLICY. We do not hesitate therefore to describe the King Manpower Policy, and all the furtive political manipulations which characterized the administration of that policy, as a gross miscarriage of social, political and economic justice. As our forthright, progressive leader has said, it was — and is — "the greatest hoax ever perpetrated on a nation."

NATIONAL UNITY AND WELFARE MUST COME BEFORE NARROW POLITICAL ADVANTAGE. Divide-and-rule policies have no place in framing the basis for peace-time government. Only a party that will recognize equality of opportunity for all in time of peace as well as equality of service and sacrifice in time of war can solve the problem of national unity with the confidence of all Canadians.

WE STAND FOUR-SQUARE FOR EQUALITY OF SERVICE AND SACRIFICE IN WAR; IN PEACE, EQUALITY OF OPPORTUNITY FOR ALL.

Published by the Progressive Conservative Party, Ottawa.

FOR THE DAWN OF A NEW DAY

Security with Freedom!

Your Vote on June 11th can bring lasting security to your work, your home, your family!

Security for your WORK

Here are some of the definite, practical steps taken by the Liberal Government to give security to home and family by assuring well-paid post-war jobs for everyone:

For Veterans — The most generous plan of any United Nation to get returned men started in the type of work each of them chooses. The Liberal Government is determined that every man and woman coming home to Canada shall return to the land of greatest opportunity in the world.

For Workers — About a third of all Canadians depend on exports for their livelihood. Liberal plans provide for increasing our exports 60% in value over those of 1939.

For Farmers — Acting on the belief that all Canadians prosper when farmers do, the Liberal Government has arranged that they can improve their farms and equipment under a new loan plan and has arranged to put a floor under the prices of farm and fishery products.

To stimulate employment for all, the Liberal Government has created a special Department of Reconstruction which is now in operation and which will co-ordinate private and public enterprise.

Security for your HOME

The Liberals believe that the home is the heart of the nation. They aim to give Canadians every possible facility to build and furnish better homes! With Government assistance you can build a home in the country, town or city. This will make jobs for the building trades, and those who make building supplies—and those who manufacture household equipment and furniture.

New Homes for Canadians — The Liberal Government's new \$400,000,000 National

Housing Act, now on the statute books, enables hundreds of thousands of Canadians to get money at low interest and on long, generous terms to build, renovate or enlarge their own homes. Now that Germany is defeated, plans are already in operation for at least 50,000 dwellings.

Other practical, workable measures for the security of your home are the Liberal Government's laws for Unemployment Insurance and Liberal Old Age Pensions.

The Liberals believe in doing what can be done, as soon as it can be done. If returned to power on June 11th, they will carry on and expand the sound, constructive work already started.

Security for your FAMILY

Family Allowances — Starting in July, parents who benefit least from income tax exemptions will receive Family Allowance cheques every month to help them get better food, clothing, shelter and education for their children so they can grow into healthy, vigorous Canadian citizens. These cheques will amount to between \$200,000,000 and \$250,000,000 a year. As direct spending power, this will do much to help in achieving the Liberals' objective of full employment.

Health — A National Health Plan will ensure that everybody shall be taken care of while they are sick and the best measures medical science can devise shall be employed to prevent disease.

Despite the efforts of Drew, Bruce, Bracken and other reactionaries, the Liberals are determined that human interests, the needs of men, shall be placed before "business as usual."

The Liberals have faith in Canada, a united country, and in their ability to continue to build, with your support, a more abundant life and greater opportunities for Canadians.

Help build this new order of security with freedom. Protect the social gains already made. Vote for your Liberal candidate on June 11th.

Radiograms

CJCA's slogan "Crossroads of the World" was exemplified in full, recently when the BBC London, broadcast a program which originated at CJCA's studio.

Activities at "The Crossroads"—the physical changes—new buildings—scenery—the many Canadian-American construction projects—the sports picture and other items of special interest to local boys everywhere, were vividly portrayed.

The program was produced and recorded at CJCA's studios. The record was shipped to Ottawa, then relayed by air to the BBC London. It was broadcast April 10, and the boys really appreciated hearing from their home town.

R. Garrett, CERA, HMCS Orangeville heard the program in the mid-Atlantic. He said, "It was great to hear those call letters, C-J-C-A once again, and I'm sure a great many boys, like myself from Edmonton, enjoyed the broadcast very much."

Sgt. Dingman heard the program from a U.S. Army Hospital bed in Italy. He said, "The talk of co-operation between the U.S. Forces and Canadians couldn't have been more appropriate and caused some fine comment in the ward."

Yes, on April 10, Edmonton, "Crossroads of the World", reached out to all corners of the globe—not by air as is now customary—but by airway, via the BBC.

The tremendous popularity of Jo-Jo, CJCA's mythical bird, is reflected in the inexhaustible variety of sources from which "his" Red Cross money is received.

During the past year rural school students working through organized effort in their classrooms have contributed a large portion of Jo-Jo's \$9,000 Red Cross donation. Social functions, dances, raffles, pie socials, box and basket socials, auctions, home cooking sales, patch-quilt contributions, party collections, bridge score wagers, and sale of articles made by children, are among some of the main money-raising activities reported to Uncle Hal and Jo-Jo.

Names of the organizations are most interesting. There's "The Happy Gang"—organized especially for Jo-Jo. In another part of CJCA's listening area is the Penny Penders Club which delivered 2,150 pennies for Jo-Jo's Red Cross Fund.

The Aunt Samantha Group does its share regularly—so does the Blarney Club; The Peace and Harmony Association; The Willing Helpers; Good Will Club; The Victory Club and scores of others.

Jo-Jo is a household word in Alberta—as well as parts of British Columbia, Saskatchewan and the Northwest, and "his" activities on behalf of the Red Cross are legend.

ARRANGEMENTS FOR SCHOOL HOLIDAYS IN ALBERTA COMPLETED

JULY 6 TO SEPTEMBER 10

Final arrangements for the closing of Alberta schools July 6th with re-opening set for Sept. 10 have been completed throughout the province, Hon. R. Earl Ansley, minister of education, announced Monday.

The summer holiday dates for provincial schools were authorized at the recent session of the legislature providing plans could be completed. Special arrangements have been made for the children of farmers to obtain leave from their classes during the harvest season next fall, the minister

said. About 152,000 Alberta school pupils will be affected by the school holiday change. This includes all pupils with the exception of a few in private schools.

Unless further changes are made to the provincial act covering school holidays are made at the next session of the legislature, the holiday schedule will make the final change back to the pre-war June 30-Sept. 1 schedule in the summer of 1946.

DYNAMICS OF PEACE

Do you know what is going on in San Francisco? A survey that two thirds of our people either had no idea or the wrong idea. The rest guessed rightly that the Conference has nothing to do with peace terms, war criminals or boundaries. It is only trying to set up some sort of world organization—a new, more acceptable, more practical league of nations, a workable mechanism for peace.

But what a mechanism produces and where it takes you depends on who and what drives it. Will the new machine be used wisely? Or, as before in history, will it just be used for selfish ends. The motives which drive men and, through them, nations—these are the important things.

San Francisco may set up a satisfactory peace mechanism. But where and how can we work out the real dynamics of peace? Some countries have hurried to declare war on the Axis in order to be invited to the San Francisco Conference. But what nation has hurried to declare war on selfishness to find the inner unity that can give it moral authority at the Conference?

A Safety Council is proposed, made up of the strong nations, to deal with future aggressors. But what higher moral authority can these strong nations turn to if they themselves become aggressive or disunited?

That is where you and I come in. Big plans take many small people to carry them out. Our motives are the dynamics of peace. If you and I have the will to unify our nation will be united. That will to unity will come if we check our own selfish motives and let God speak to each of us in our own hearts. Then ours will be a sound nation in the Safety Council. A nation which, united within, can speak with authority at the Conference of United Nations. A nation which, in an age of force, is governed by the Superforce of an all-powerful God. A nation which thus answers the old question: "Who is going to police the policemen?" A nation which has not only the mechanism but the motives which make peace.

SICKNESS CAUSE OF LOSS OF NINE DAYS A YEAR TO WORKERS

Toronto—Of nine and a half days' work lost by the average Canadian wage earner in a year, nine days is lost through sickness and non-industrial accidents and one-half day through occupational accidents.

This serves to emphasize the vital need for health service in industry and the Industrial Division of the

Health League of Canada stresses this fact in an attractive 32-page booklet just issued.

The booklet tells of benefits which can be derived from industrial health programs, their cost and their objectives. Their operation is gone into in detail under the following headings:

Personnel required; part-time nursing services; services provided to employees; physical examinations; duties of medical staff; control of absenteeism; dental and eye care; control of venereal diseases; detection of tuberculosis; placement of veterans; labor-management committees; dispensary equipment; food service for employees.

Also discussed are health services for smaller plants which employ 100 or less.

Part played by the Health League of Canada in the matter of industrial health is described—distribution of posters, leaflets and a monthly bulletin, and the holding of conferences being the keynotes of League services to both employers and employees.

The booklet emphasizes that workers cannot be forced to take care of their health, but that through

health education they can be induced to want to do so. A systematic campaign of education is bound to improve employees' health, reduce absenteeism and increase efficiency.

EUROPE ALARMS DIPHTHERIA REPORT FROM HEALTH AUTHORITIES

Toronto—The authentic report from the health division of UNRRA that Nazi armies carried diphtheria with them to all parts of invaded Europe is significant in that it serves to emphasize the value of toxoid and just what can happen when health services, including immunization, are disrupted or neglected. Canadian health authorities have reason for alarm over such a report.

The UNRRA report said Norway, the Netherlands, Belgium, Northern France and Czechoslovakia suffered especially. Only Great Britain and Hungary, where immunization was pushed to the limit, escaped the scourge.

Disease carriers with the Nazi armies spread diphtheria epidemics wherever they went. The same can happen in Canada, with our own

returning troops perhaps being the innocent "carriers."

In an editorial warning against diphtheria, the Toronto Globe and Mail said that "considering that thousands of Canadian soldiers soon will be returning from the Netherlands, Belgium and Northern France, which have especially suffered from the German-borne scourge, the value of toxoid is underlined."

The editorial was published during observance of Toronto's 15th annual Toxoid Week, sponsored by the Health League of Canada and the Toronto Department of Public Health. It stated that "careless parents who fail to take advantage of the opportunity to have children treated at no cost to them will be derelict in duty if they fail to guard against a threatened invasion of the disease. They surely ought to be shaken from their indifference by the warning that oceans constitute no effective barrier against a disease of the diphtheria type."

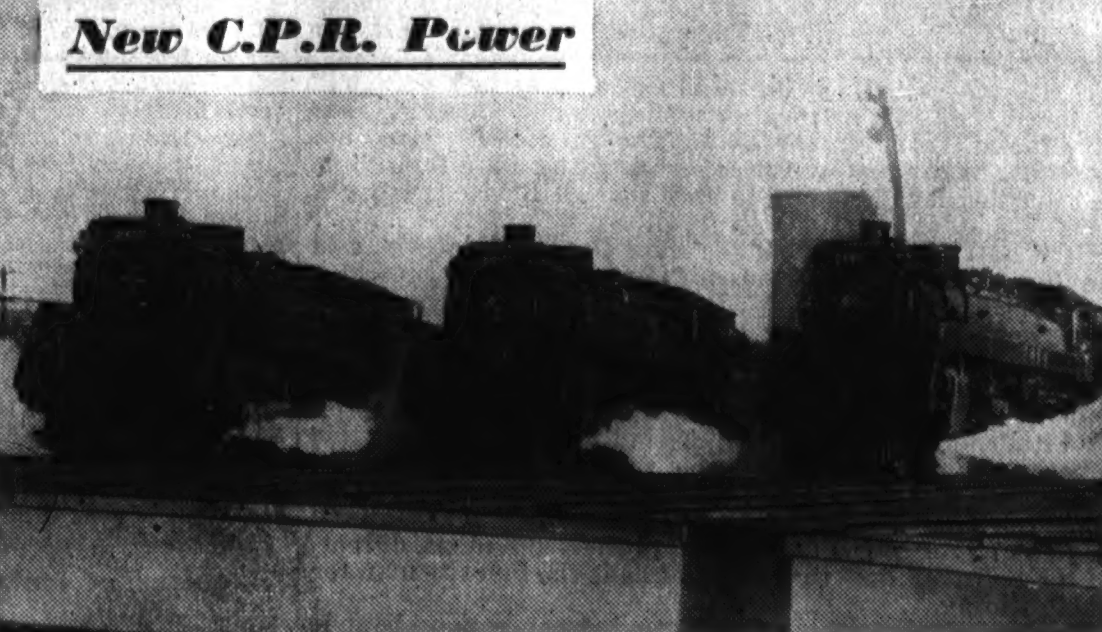

Dr. Gordon Jackson, Toronto's medical officer of health, said in a the only substance known to science that proves efficient, lasting and positively harmless in the protection against diphtheria.

New C.P.R. Power

CHAMPING AT THE BIT: Just out of their stalls in Glen Yard's roundhouse at Montreal these snorting iron horses are among the late deliveries in an order for 45 Pacific-type locomotives completed for the Canadian Pacific Railway in April by Canadian Locomotive Company at Kingston, Ont. Their work is cut out for them in maintaining the C.P.R.'s impressive war hauling record which stood at 253 million tons of freight and 68 million passengers at the end of 1944.

BE PATIENT!
SOME GOODS ARE STILL SCARCE...

DON'T CONFUSE THE SIGNALS

War came. Most civilian goods had to be diverted to war needs. That caused shortages of civilian goods—that was the **RED LIGHT**

don't jump the **YELLOW** light

Some restrictions have been lifted, but war demands are still great. We must help our Allies and the liberated countries. We can't neglect them.

(This is the **YELLOW LIGHT ONLY**).

It does not mean the end of shortages. Getting back to peacetime production will be piecemeal and gradual.

Goodwill, patience and energy now will assure a prosperous Canada tomorrow.

194? it's **NOT** the green light yet

Only after Victory over Japan can the Green Light be switched on, and the road cleared for enough production to meet all our civilian needs.

WITH SPRING

With the coming of spring you usually think of robins, worms, gardening, nice weather for vacationing, etc., but this year with spring there is an ever increasing flow of political propaganda.

You can hear it on the radio and see it in the press, no matter where you turn there it is, you can't avoid it. Every party has an axe to grind and so they do their best to make life miserable for us common folks, by telling us that theirs is the only party that will solve the mess that Canada will be in after this war is finally over.

The average person has his mind made up, as to how he will vote long before the political campaigners let loose at each others throat. However, there might be a few that have not made up their mind as of yet, and maybe these are the people who the politicians hope to convince that OURS is the right party.

In the Battle River Riding, we have five candidates named to contest the seat in the House of Commons for us Liberal—Mr. F. C. Saville of Hardisty; Progressive Conservative—Mr. George Bennett of Manville; C.C.F.—Mr. H. E. Spencer of Edgerton; Social Credit—Mr. Robt. Fair of Paradise Valley; Labor Progressive Party—Mr. E. P. Taylor of Hope Valley.

One of these men is going to get a majority at the polls on June 11th, and that man will be the choice of the people in this riding. Now if only half the eligible voters go to the polls on that day, you can see just how foolish it would be to say that the man elected was the favorite in this constituency. True enough he might be the favorite of all the people that did attend the polls, but does that say that he is the favorite man for a whole riding.

Of course not, but then again just what can we do about it if everybody doesn't turn up at the polls. Simple isn't it, EVERYBODY turn out to vote. Only in this way can we have true democracy.

If any person does not use their franchise in an election, they are a mockery to our forefathers, who fought and died so that there would be election by ballot, and many other reforms that we today take for granted.

In the near future you will hear people say, "Oh I don't think I will bother voting". Well those are the people that will do all the hollering after it is all over with. Well, just let them holler, why should they have anything to say after they didn't bother to voice their opinion by marking a ballot.

In the mean time I guess we will have to put up with the politicians and think the whole matter out for ourselves. When the day for voting comes, don't take the attitude that it doesn't matter whether you vote or not. IT DOES MATTER. Remember the slogan of former years, VOTE AS YOU PLEASE, BUT PLEASE VOTE.

THE AIR AGE

Tomorrow will see the coming of the air age, when we think of air travel and air express just as today we think of the train and motor car.

With the start in Wainwright of an air strip, we here should feel justly proud of our council for such far sightedness in going ahead with a small landing strip on the north edge of town. It will only be in a small way to begin with, but can be increased in size when ever the need becomes evident.

With the new T.C.A. route opening up very soon from Edmonton to Saskatoon, it is hoped that it will pass over Wainwright. If this is the case, it would prove very beneficial to the town if we had an air strip to take care of such things as emergency landings. In time maybe, we might be fortunate enough to have passenger service to the cities.

The slogan of one of the big air craft corporations in the States, is, "All first class mail by air, it's coming". If the day should come that all of our first class mail will be travelling by air, we will be ready for it.

Wainwright can do things if somebody will just put their mind to it and get it done. However, at times there is a definite lack of co-operation, luckily in this case though, every thing is going off according to schedule.

Congratulations to the Town Council, they scooped again.

Rubber Goods

Return to Homes

Rubber gloves, the kind house-
wives wear to protect their hands
while washing dishes or dyeing cloth-
es, are now back on the Canadian
retail market in limited quantities,
and represent another step in the
gradual return of the rubber house-
hold products so widely used in
peacetime.

The gloves, like other products
finding their way back into the
homes, are not made of natural rub-
ber, but of neoprene, one of the
synthetics.

For scrapers, fly swatters, and
many other articles are now being
manufactured from reclaimed rub-
ber, and some of these are already in
retail shops.

SEA CADET ORDERS

Royal Canadian Sea Cadet Corps
R.C.S.C. "EXETER"

Parade orders for Sunday, June 3rd.
Roman Catholic Cadets and Wrens
will fall in at the Convent at 9:15.
Sunday, June 3rd to attend Mass at
Sacred Heart Church, colors will be
deposited during the Service.

Protestant Cadets and Wrens will
fall in at the Public School at 10:30.
Sunday, June 3rd to attend Morning
Service at St. Andrews Presbyterian
Church.

The whole ships Company will
fall in outside of the Presbyterian
Church after the morning service and
will parade past the Post Office
Building where the salute will be
taken by a member of the Navy
League of Canada.

As this is the last formal parade
of the season every member of the
Sea Cadet Corps must attend.

BACK IN SERVICE

Vancouver—After undergoing an-
nual overhaul recently at the Prince
Rupert Dry Dock and Shipyard, the
Canadian National coastal liner SS
Prince George has joined her sister
ship, SS Prince Rupert, to resume
the company's regular twice-weekly
service on Mondays and Wednesdays
from Vancouver to northern B.C.
ports and Ketchikan, Alaska, arriving
back in Vancouver on Saturdays and
Mondays.

A heavy volume of passenger traf-
fic on these popular Canadian National
steamers is anticipated this
summer, according to Wm. Staple-
ton, general passenger agent, C.N.R.,
Vancouver. "We feel that many of
the new residents and visitors to the
Pacific Coast will take advantage of
our five-day round trip schedule from
Vancouver to Ketchikan, Alaska, to
enjoy a healthful sea voyage in pro-
tected waters and also to see the
fine scenery along the Inside Passage
route," he said.

THE CHANGE TO PEACE

Any business will tell you that if
a man doesn't know where he is
then it's a sure thing that he doesn't
know where he's going. A banker
was once heard to put it this way.
"I don't care where a man's bank
balance is, it's where he's heading
that is important."

It's important today that people
know where they're heading. That's
true of our political and national
leaders, but it's also necessary for
the ordinary voter. Much of the
planning of our experts is made im-
possible by the living of the ordinary
person.

Where are we heading? There
seem to be two schools of thought
about today. The one that believes
and hopes and prays for a new and
better world and the other who
much as they want this, feel it is im-
possible to build. Many who fall in-
to this latter group do so through
lack of a practical programme,
whereby they can take part in build-
ing something better.

A small book published a year or
so ago has been brought up to date
and just reprinted—it is the answer
to this need. It is called "Pull To-
gether Canada" and outlines a simple
three-point programme in which
everyone can have a part—sound
homes, teamwork in industry, and
unity in the nation. It takes twelve
minutes to read, but a lifetime to
live.

There is the need for a programme
in every country and editions of this
book have been printed in the United
States, where it is going into its
second million, in Britain, Switzer-
land and most recently in Holland,
where it was taken by the liberating
British armies.

WASTE PAPER NEEDED

Householders and everybody are
asked to save all their newspapers,
magazines, books and cartons for the
waste paper salvage campaign dur-
ing the next few days. Arrangements
are being made to ship a carload of
waste paper of fifteen tons from
Wainwright the first week in June,
and we are asked to co-operate in
order to make a full carload. Canada
needs 20,000 tons of waste paper
every month to complete the war ef-
fort and to assist in the post-war
program. For information contact
Mr. C. Wilbraham at the M.D. Office.

SALE BY PUBLIC TENDER OF PETROLEUM AND NATURAL GAS LEASE

PUBLIC NOTICE IS HEREBY GIV-
EN that the Deputy Minister, De-
partment of Lands and Mines,
Edmonton, Alberta, will up to 2 o'clock
in the afternoon of Tuesday the
twelfth (12th) day of June, 1945, at
Room 409, Administration Building,
109th Street, Edmonton, Alberta, re-
ceive tenders for the purchase of a
lease of the petroleum and natural
gas rights in the lands hereinafter
described.

DESCRIPTION
Sections 31, 32, 33 and 34 in Town-
ship 41, Range 8; Sections 3, 4, 5, 6,
7, 8, 9, 10, 11, 14, 15, 16, 17 and 18 in
Township 42, Range 8; sections 1, 11,
12, 13, 14 and 15 in Township
Range 7, all West of the Fourth
Meridian, comprising an area of
15,336 acres.

The tender together with the full
amount of the bonus accompanied
by a fee of \$200.00 and a cash de-
posit of \$15,336.00 (equivalent to
\$1.00 per acre) must be enclosed in a
sealed container and may be handed
to the person conducting the sale, or
may be forwarded by mail in which
event the tender must be in the pos-
session of the officer of the Depart-
ment at the hour appointed for the
holding of the sale.

The cash deposit shall be held as a
guarantee that an expenditure will
be made in the drilling of wells equiv-
alent to the amount of such deposit,
which will be returned upon filing
evidence satisfactory to the Minister
of such expenditure.

The bonus, fee and deposit must be
in cash, marked cheque on a char-
tered bank, certified Treasury Branch
order cheque or certified non-neg-
otiable transfer voucher payable to
the Provincial Treasurer.

The lease will be awarded to the
person who tenders the highest cash
bonus and such person will have a
period of fifteen days in which to ex-
ecute the lease issued in accordance
with the provisions of the sale. The
Minister may in his discretion re-
ject any or all tenders.

No tender will be considered which
does not comply fully with the fore-
going requirements and conditions.
In the event of no tender being re-
ceived the petroleum and natural gas
rights will be automatically with-
drawn from disposal and placed under
reservation.

The lease to be issued to the suc-
cessful tenderer will be in a form ap-
proved by the Minister, a copy of
which may be obtained upon applica-
tion to the undersigned at Room 409,
Administration Building, Edmonton,
Alberta.

EDGERTON

196th Victory Wheel draw was won by George Sawyer with No. 13. F.O. Phil Pawsey who is home from service overseas with the R.C.A.F. was a visitor in town for a short time.

Jack Gilmore had the misfortune to fall from a tree whilst hunting for crows and magpies eggs, breaking a bone in his foot. He was taken to Provost for medical aid.

Earl Hallett was a visitor to Saskatoon last week.

Les Derry and Tom Shaw were both visitors to the city.

Mrs. George, 85, was taken quite ill early in the week and was glad to say she recovered.

The Edgerton Club were hosts at a dance in Pawsey's Hall last Wednesday. A big bus brought a full load of students from Wainwright.

The Sea Cadets from Wainwright played ball against the Edgerton Cadets resulting in a win for the latter.

Lloyd Wilson was taken ill early Thursday morning and had to be rushed to hospital at Wainwright. It

is not known whether he will have to undergo an operation.

Several people from around here went to Wainwright Thursday to donate blood at the Mobile Clinic.

Norman Miles and family went to Elk Point Sunday to visit the Dales there.

A meeting of the Athletic Club was held in McKays office Monday

and a Sports Day will be arranged this year with the date being June 27. Watch for posters.

Services will be held in St. Mary's Church next Sunday June 3rd, at 10 a.m. and 7:30 p.m. and at St. Patrick's, Heath.

Work at Edgerton oil well is going strong. Dr. Hume, Dominion geologist and Dr. Rutherford, Provincial geologist, are both here during coring operations.

Peter Mills of Edmonton is visiting here.

The sympathies of the district goes to Mr. W. Morrow on the death of his wife on Thursday morning of

last week.

Mr. and Mrs. Bob Barnett received a pleasant surprise on Saturday morning when their daughter arrived from the coast for a visit.

Congratulations are extended to Mr. and Mrs. Roy Sargeant on the birth of a son.

Mrs. Martin Daniels arrived home on Saturday night's train to spend a holiday with her parents Mr. and Mrs. H. Pfleger.

Telegrapher Marvin Jackson arrived home last Thursday from naval duties and is receiving his discharge from the service.

A nice crowd attended the dance held at the hall on Friday night. The next dance will be held on Friday, June 8th.

Canada, which in the last year provided 73% of its war production for other allied nations, will provide 80% in the coming months.

A Russian-born Canadian scientist is experimenting at the University of Western Ontario here on a new drug similar to penicillin which is hoped to prove effective in tuberculosis treatment.

GREENSHIELDS

The sympathies of the district goes to Mr. W. Morrow on the death of his wife on Thursday morning of

This picture of an anxious group of London citizens is taken from a moving picture film, "V-1" which will be shown in many rural areas of Canada as part of the Eighth Victory Loan program. The film shows the intense anxiety in the faces of these workers as they speculate

wreckage of homes destroyed just a short while previously by a robot bomb. As they work they hear and see another of these dreadful messengers of death approaching. Note the intense anxiety in the faces of these workers as they speculate

whether or not the robot will stop and fall as it reaches them, or will pass on to another target. The film is one of the most vivid picturizations of robot attacks in England which has been produced.

**"small business"
ISN'T SO SMALL!**

Ordinarily one Canadian in every six gainfully employed, earns his livelihood in a "small business." It may be a farm, a store or a lumber-yard; an architect's office or a service station. Taken together, these individual enterprises provide a very substantial part of Canada's total jobs—must continue to do so after the war.

During the years ahead many people who dropped small business for war reasons will want to return to their accustomed or new ways of making a living. Thus old businesses will be revived. Many new ones will be started by returned men and people now in war industries. The commercial banks will do their part to afford assurance that no sound credit requirement need be left unserved in the field of small business.

As such businesses grew, they create additional job openings; that has been the pattern of Canadian enterprises. Most large companies began in a small way. And practically all could name some bank which played a part in their growth by providing the loans they needed to finance their day-to-day operations.

Your bank stands ready to serve businesses, small or large, well established or just starting out. Banks do not initiate such businesses—but they do furnish necessary working capital and many other forms of banking service.

No fewer than 94 out of every hundred establishments in the manufacturing, wholesale, retail and services fields are small, employing less than 15 people. Together they employ 37% of all the workers engaged in these classes of business.

Nearly everybody who's thinking of post-war flying these days is thinking of the helicopter. So far several models have flown successfully, though only the Sikorsky model has been manufactured in limited quantities for actual use.

The imagination of the whole world has been caught by the dramatic ability of this new type of aircraft to rise and descend vertically, to deliver doctors where snowstorms have isolated homes from other means of transportation, to snatch shipwrecked victims from the sea, to land or pick up men or supplies in the middle of almost impenetrable bush.

Many a lurid, fanciful account of what the helicopter can do has led millions to believe that such machines will be parked in every back yard not long after the war is over. Practical hard-headed aeronautical engineers, even those most closely associated with the development of the helicopter, do not share this view. The clear, cold truth is that the helicopter is still many years away from the point where it can be used successfully by the average man.

One noted aeronautical engineer told us the other day that the helicopter is neither an airplane nor an automobile, that it cannot replace either, that it's field is a brand new one. He said the helicopter has reached the same stage of development that the airplane had reached in 1910.

Today's helicopter is expensive. The motor which powers it is already in mass production and has been for a long time. Yet the size of it makes it expensive too. Right now the helicopter is harder to fly than a conventional airplane. It is a dangerous machine while within a hundred feet of the ground because if the motor quits it needs a least a hundred feet for the rotors to start the moving on their own and check the rate of descent.

As at present conceived, the helicopter does not compete with the airplane because the airplane is primarily useful for long distance transportation. Over any reasonably long distance the airplane with the same power is so inherently more efficient than the helicopter, and more inexpensive to fly, that the helicopter does not stand a chance in competition.

Over short distances of one hundred miles or less, the helicopter cannot compete with an automobile. Though it flies faster than the automobile travels, the takeoff and landing time, and the comparative inconvenience of parking it, together with the matter of expense, make it unlikely that anyone would buy a helicopter to replace an automobile.

This does not mean that some day the helicopter will not be able to hold its own. Perhaps jet propulsion working from the ends of the rotor blades will supply sufficient economy and efficiency to make the machine practical for long distances. But the men who are responsible for solving these problems do not expect a solution of any help to you or I for at least 15 or 20 years.

Meanwhile though few individuals

work to keep a twenty thousand or organizations will have enough dollar helicopter employed, flying services will undoubtedly use them for getting their customers in and out of places which can be reached in no other way. Forestry patrol, coast guards, for these the helicopter will have a limited but invaluable use. Meanwhile, the average man will do his post-war flying in regular scheduled airlines and the inexpensively operated private light plane.

Can. Garden Ser.

For Tenderness
Quick, unchecked growth is the real secret of tender vegetables. Crip beets, carrots, beans, celery and similar things without stringiness or tough cores from gardens where growth has been hurried along, unchecked by weeds or other neglect. Even if the weather is none too favorable, experienced gardeners can produce this sort of quality.

First they keep the soil well cultivated, both to keep weeds eliminated and also to conserve moisture and encourage quick development in dry weather. They thin those vegetables which need spacing in order that there is proper, even and speedy development. They harvest vegetables when they are at their best, just the right size for eating and before they start to harden and mature.

But that is not all. They keep a fresh supply coming on all through the season by making plantings ten days to two weeks apart right up to the 1st of July. It is the greatest mistake, old gardeners point out, to sow all seed on a single afternoon. Carrots, beans, beets and many other vegetables can be planted successfully over a period of from three weeks to eight weeks in almost every part of Canada. If sown out in this way, the harvest is extended, equally at the other end. To extend the season still further one can use early, medium and late varieties. Nowadays a few days of feasting on fresh peas or corn is not enough, one can have that sort of luxury for weeks on end.

One Good Weeding:
No matter how one looks at it weeding is not a pleasant job, and in the small, crowded garden there are few short cuts. But it is really wonderful what a feeling of satisfaction one gets from getting the garden really cleaned up once. Moreover, according to those who know something about this sort of thing, once a garden has been really weeded it is a simple thing, or comparatively so, to keep it clean. The worst weeds are those that start early and get really dug in tight.

Showy Flowers:
An amazing showing can be made with a few annual flowers and with very little effort. Cosmos, giant marigolds, zinnias, petunias, portulaca, nicotiana, alyssum are easily grown almost anywhere in Canada. Some of the larger flowers like cosmos and marigolds and nicotiana can actually be used in the place of

shrubs. Seeds should be started early and in finely prepared soil. Plants are transplanted to permanent quarters when they are well established with several sets of leaves. Some time can be saved by buying ready started bedding plants. For husky growth, tall cosmos, gladiolus, dahlias, giant marigolds and zinnias should have about two feet each way. Petunias, nasturtiums, medium marigolds, need about a foot apart, for best results—smaller things like alyssum require six inches each way.

World of Wheat

H. G. L. Strange,
Director, Research Department,
Searle Grain Company, Ltd.

THE WAR CONTINUES

Our gallant lads have successfully finished their war in Europe against our enemies the Fascists and the Nazis. After a short spell many of our lads will no doubt be travelling to the Pacific to help to finish the war against Canada's other vicious and aggressive enemy, the determined Japanese. But there will be no spell for our farmers, for the farmers' war against the arch enemy "Hunger" goes on; and the struggle against malnutrition and suffering among the people in Europe will continue for some time yet.

There will undoubtedly, therefore be heavy demands on our farmers for most of the foodstuffs they can produce, particularly for such high vitamin foods as meats, eggs, butter, powdered milk and cheese which the growing children of Europe so badly need.

The credit for ending the war satisfactorily in Europe unquestionably goes first and foremost to our brave young men who have endured the trials and sufferings of battle, but in this hour of justifiable rejoicing, we must not forget the valuable work done by our farmers who have produced and made available such large quantities of essential foodstuffs which enabled our fighting men, and the civilian people of Britain and other countries, to "carry on" during these long war years of stress, strife and difficulty.

ITEMS OF INTEREST IN

THE WORLD OF FOODSTUFFS
Broomhall reports that crop prospects in North Africa are poor again this year—Prairie wheat acreage this year is unofficially forecast at 20,529,500 acres, compared with 22,445,000 acres last year, a decrease of about 9 percent—Crop conditions are reported as unfavourable in the Danubian countries with no exportable surplus in prospect.

Ploughing and seeding are active in Argentina, and with the prospect of a broad export demand at high prices growers are being encouraged to increase sowings—The corn surplus in East Africa is estimated at about 45,000 tons; wheat at 24,000 tons—Recent general rains in Spain are expected to improve the wheat yield.

THE ROAD AHEAD

A Column for Service People

By William Stephenson
According to the letters being received by this department, many people in Canada are still not sure how much their returned men and women will receive in the way of discharge gratuities. A short review of the rules may be helpful: Regardless of sex or rank, service people who have been in any of the

active armed forces of Canada will receive on honourable discharge:

(a) \$100 clothing allowance.
(b) \$7.50 for each 30 days voluntary service in the Western Hemisphere, and \$15 for each 30 days overseas.

(c) A supplementary gratuity of 7 days pay and allowances of rank for each six months spent overseas. (Allowances include dependents allowances, and subsistence allowances on the scale of \$1.25 a day for other ranks and \$1.70 a day for officers.)
(d) One month's pay plus dependents allowances, if in the service for 183 days.

NRMA personnel who do not serve overseas are not eligible for the gratuity payments of \$7.50 and \$15.00 for each 30 days of service. To cite an example, a woman in Kelowna, B.C., asks:

"I am the mother of two young children. My husband, a sergeant in the Canadian Army has been overseas for three years and seven months. Before that he spent eight months training in Canada. How much will we receive when he leaves the army?"

Working down the list, this sergeant will receive in cash, (1) \$100 for clothing, (2) \$705 in basic gratuity for his Canadian and overseas service, (3) About \$270 supplementary gratuity, (4) Regular pay of \$68 plus \$35 for himself and \$12 for each of the two children. He may have other allowances such as trades pay, but his receipts will be about \$1225.

"Before the war I couldn't fix a wheelbarrow," says this young veteran now resting at home in Windsor, "but in the army I learnt a lot. I'd even like to build my own home, and my bride thinks it's a fine idea. Are any arrangements made for this in the Small Holdings section of the Veteran's Land Act?"

Yes, there are. Any work you did on your own home under the Veteran's Land Act would count as a capital contribution by yourself, providing the plans and workmanship were up to standard.

"I'd like to go on to college for a course in Home Economics," a young CWAC writes from England, "but unfortunately I still have to finish my last year of high school. Will I receive training benefits until I complete my senior matriculation?"

Yes, but this is not encouraged. The number of years training benefits you receive depends on the length of time you have been in the service. You would be wiser to conserve your training grants for the more expensive

university course, and finance the expensive high school matriculation yourself.

(If you have a problem, drop us a line at Wartime Information Board Ottawa.)

Veterans, Health and Welfare

Last October the Government Department of Pensions and National Health was split into two new departments: Veterans' Affairs, and Health and Welfare.

Veterans' Affairs deals exclusively with matters concerning veterans, and their return to civil life. It helps the veteran get a job, helps him take special training, start a business, buy a home or a farm or farming or fishing equipment, or even buy insurance without a medical exam. Sick or disabled veterans are given special treatment through this department, and pensions are administered by it.

The Department of Health and Welfare also deals in human relations although in a less personal way. It administers Acts dealing with child and maternal hygiene, nutrition services, physical fitness, venereal disease control, narcotics control, quarantine and medical service, marine hospital administration, public health engineering and the Food and Drugs Act. Last, but by no means least, the Family Allowance Act—"baby bonus" to you and me—is handled by this department, and the projected health insurance and old-age pension schemes would be, too.

Solder That Syrup
"Thank heaven for a poor maple syrup crop," groan Post Office repair men, as they swab, salvage, re-pack and recondition soldiers' parcels damaged by maple syrup oozing from containers insecurely closed and wrapped.

Ideal method for packing maple syrup, says Post Office, is in metal

containers with lids soldered on, wrapped in some absorbent material and packed in a corrugated paper box.

53 Quarters of Ether
May 4th to June 1st the airways will be humming with political speeches. The CBC has set aside 14% hour free time on the national networks for Canada's political parties. (Of course, they can all buy more time.)

Based on the number of candidates running, time has been dealt out like this: 5 1/2 hours to the Liberals, 3 1/2 hours to the Progressive Conservatives, 3 1/2 hours to the C.C.F., 1 hour each to Social Crediters and Labor Progressives.

Russian Pipe Line
The Russians have started building

ing a 500-mile pipe-line, which will carry gas from the Volga city of Saratov to Moscow at half of what it now costs Moscow householders. The line will cross 90 rivers, five lakes and 26 railways and high ways. In spite of this, the plan calls for its completion within a year.

Filipino Women Guerrillas
Filipino women have for centuries fought side by side with their men, here are stories of two of them, both former school teachers. The first, living on Leyte, fled to the hills when the Japanese came. Given a carbine brought in by a U.S. submarine, she accounted for 55 Japanese soldiers. Her comment was, "I could have doubled it if I'd been given my carbine sooner!"

George Bennett Progressive Conservative Candidate

BATTLE RIVER

GEORGE BENNETT, one of the organizers of the Alberta Wheat Pool, is the Bracken candidate in Battle River, Alberta.

Born in Aberdeen, Scotland, December 16, 1877, Bennett spent the first 25 years of his life in that country. He was raised on a farm and went to school in Aberdeen. For a number of years he was employed in the grocery business. Having heard so much about farming in Canada, he decided to emigrate to this country.

In 1902 he arrived in Manitoba, settling first at Portage la Prairie and later at Oak Bluff. He still operates the homestead he took up in the Manville district in 1904.

He goes in for mixed farming with wheat his principal crop. Proud of his 40 head of Hereford cattle, he also raises a number of hogs.

Mr. Bennett worked hard to get the Alberta Wheat Pool organized and was a delegate in 1924, the year after the pool was formed. He became a pool director in 1927 and in 1941 was elected chairman of the board of directors.

Almost from the start of his homesteading days he has been interested in farmers' movements. He was a member of the Alberta Farm-

ers' Association, a pioneer agrarian organization which later joined with the Society of Equity to form the United Farmers of Alberta. The U.F.A. is still a vigorous organization though no longer active in the political field.

As far as politics is concerned, the U.F.A. is the only Canadian party in which Mr. Bennett has taken any interest. He confesses that when he came to Canada he was a Socialist but he soon saw the folly of his ways.

With regard to the present political situation, he says: "I came to the conclusion that I did not know how I was going to vote until John Bracken came into the field and then I knew". This is his first political venture.

Through his long residence here, Mr. Bennett hasn't lost his Aberdonian accent. He is intensely interested in soil conservation and feels that the first duty of the farmer is the improvement and perpetuation of the land.

In 1914 he married Isobel Maitland, also a native of Aberdeen. They have two sons, James who is on his father's farm, and Robert, who runs a grain elevator.

His wife is president of the Creighton W.I. and a provincial director of the Alberta W.I.

Farm Notes

**SOWING GRAIN MIXED
WITH FERTILIZER**

Many enquiries are being received by the Department of Agriculture as to the advisability of applying fertilizer through the ordinary grain drill. The application of fertilizer by mixing it with seed grain is not usually recommended advises H. J. Mather, Supervisor of Soil Conservation, although some farmers have used the method successfully. Careful handling is required to obtain uniform application at the rate intended and care must be taken to prevent injury to the grain drill.

Fertilizer is soluble in water. Even condensation water on cold metal on a damp day may cause the fertilizer to adhere to the mechanism. If the drill is then left standing, seizure of the moving parts may result. The sowing of mixtures of grain and fertilizer is not therefore recommended by the Department of Agriculture.

**TO PREVENT DAMAGE
BY ONION MAGGOT**

Onion flies usually emerge about the middle of May and towards the end of the month commence laying their eggs in the soil at the base of the tiny onion seedlings. Preventive measures should be taken before this takes place, says Alan G. Duxton,

Division of Entomology, Dominion Department of Agriculture.

Onion maggots can be controlled by treating the young seedlings with an oil emulsion spray. Use a light to medium lubricating oil of good grade. The oil may be obtained from any of the oil companies or service stations. To prepare the spray, mix a gallon of Bordeaux mixture by first dissolving two ounces of bluestone in a gallon of water and then adding two ounces of hydrated lime to the solution. Stir and pour into a pail containing a gallon of the oil.

By means of a bucket pump or other small sprayer, pump the liquid back upon itself until the oil and Bordeaux is well emulsified. This operation should take about five minutes, and can be tested by pouring a small quantity into water. When no droplets of oil are found on the surface of the water, the mixture is ready to use. Should free oil be present, agitate the emulsion still further. When the oil is thoroughly emulsified, mix the two gallons with 38 gallons of soft water, or, if the water is hard, with 38 gallons of Bordeaux mixture.

The onions should be sprayed four times, the first spray being applied as soon as the earliest apple blooms appear. Subsequent sprays should be applied at weekly intervals. In spraying, the whole surface of the ground should be covered, as well as the tiny

plants. Thorough work is essential to good control, and 100 gallons of spray should be used per acre at each application.

**HOW TO CONTROL
CABBAGE MAGGOT**

Cabbages, cauliflowers, turnips, and radishes are the favourite food of the cabbage maggot. The adults of the maggot are two-winged flies which lay their eggs on the stems of the plants about the time the European plum first comes into bloom in the spring. These insects can be controlled by the use of corrosive sublimate, says Alan G. Duxton, Division of Entomology, Dominion Department of Agriculture.

Corrosive sublimate may be bought at most seed houses, and, when used, is diluted in water at the rate of one ounce to ten gallons of water. As this material loses much of its strength when brought into contact with metals, it should be mixed in glass, earthenware or wooden vessels and applied from containers of the same kind. That is important.

In the case of radishes, the solution should be poured over the young plants about three days after they appear above ground and a second application made a week later. Radishes are nearly ready to use, because it would be dangerous to the consumer. In view of the fact that corrosive sublimate is a deadly poison both to human beings and to animals, great care should be taken in its use.

**At Last—
Fair Play for the
Farmer**

"Canadian farmers have never had a fair return for their labour. They are forced to buy in a protected market at relatively high prices and to sell in a world market at generally low prices. What agriculture needs is not crutches to carry its disability; it needs to have the disability removed. This can only be accomplished by permanent measures and long range planning."

John Bracken

At last—a farmer fights for fair play for farmers! For more than twenty years John Bracken, the Farmer, was the undefeated leader of a Farmers' Party. To-day, as leader of a great, national, progressive party, he is determined that throughout the length and breadth of Canada there shall be a square deal for agriculture... fair play for the farmer... on a permanent basis!

Farmers have seldom had a fair share of the nation's income. Rarely do they receive a just reward for their endless labours. John Bracken means to stop, once and for all, the unfair discrimination against farmers, the unjust economic practices which make it impossible for farmers to obtain fair prices for the fruits of their labour.

"It is the responsibility of the nation," says the leader of the Progressive Conservative Party, "to see that this great inequity shall not be perpetuated... I know where I stand in the matter. Let me make that position clear. It is not fore-ordained that farmers shall work for less pay than anybody else; or have their children receive only one-quarter the chance of a secondary education, or one-tenth of the chance of a university education that other children get; or see their wives forced into lives of toil, often 12 but sometimes 14 hours a day—Sundays and holidays included. ... The trouble is that no one with the necessary authority has determined to correct the basic economic ills of Agriculture."

To-day, John Bracken, the Farmer, seeks the necessary authority to put into immediate operation the far-reaching

Progressive Conservative policies that will permanently ensure fair play for the farmer. Here are just some of the points in the Progressive Conservative plan for the definite, continuous and permanent protection of farmers against income collapse and wide extremes of income fluctuation:

The Farmer shall be guaranteed a proportionate share of the nation's income.

A permanent policy for forward contract prices shall be guaranteed to farmers—by law.

The prices guaranteed will be calculated by a non-political council, and will be based on the farmer's proportionate share of the national income. These prices will be announced before the production seasons begin.

This policy will increase present average farm income by not less than twenty per cent.

It takes a farmer to understand farmers' problems. Only a farmer knows the full economic injustice from which farmers suffer. To-day, John Bracken is fighting for fair play for every farmer. The leader of the Progressive Conservatives is determined to bring security and prosperity to farmers permanently. Join in the fight. Help him to win his life-long struggle to give Agriculture a place in Canada's prosperity, not for a day—but for all time to come.

A Farmer fights for you your help.

HAVE YOU ORDERED
NEXT WINTER'S
COAL YET?

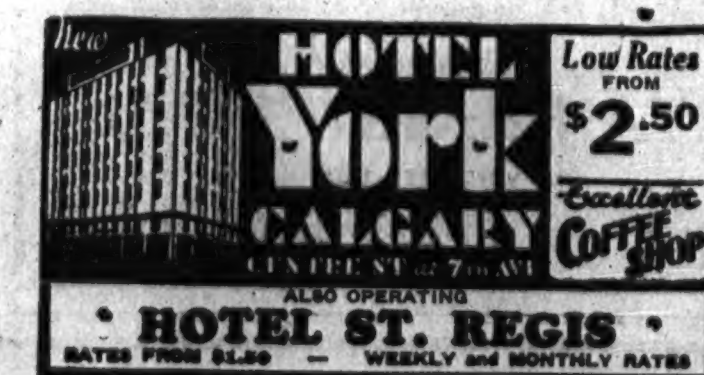

The fact is that there will not be enough coal available to keep the people in Western Canada warm next winter, unless more is mined during this Spring and Summer.

That is why we need your order for next winter's coal right away. The mines must have orders to keep operating. They must have orders immediately, or the men will seek other employment and the coal will not be dug out. Railroad cars, which are available now to haul coal, will be needed later in the summer to haul grain.

If you want to keep warm next winter, place your full order now.

NEWS & VIEWS OF TOWN AND DISTRICT

Mr. Geo. Reynolds was a visitor to
Lloydminster on Tuesday this week to
attend the annual Bull Sale there.

Mrs. Geo. Arkwright is visiting
with her daughter in the city this
week.

All members of the Wainwright
Lodge No. 45, I.O.O.F. and Adeline
Rebekah Lodge No. 54 are reminded
of the Memorial Anniversary Service
to be held on Sunday June 3rd when
members of both lodges will meet at
the I.O.O.F. hall at 7:00 p.m. and
parade to the United Church where
an appropriate service will be ren-
dered by Rev. Bro. A. D. Richard.

Mr. and Mrs. John Sutherland
spent the week-end visiting friends
in the city.

We understand Mr. L. Bean has
bought the Tommy Madkins house
and has sold his former home to Mr.
Krowl, of Calgary Power Co.

Spr. Joseph Zazinski R.C.M. spent
the week-end visiting friends in
town on leave from his army duties
at Wetaakiwin.

Mr. and Mrs. Lorne Mitchell are
in Edmonton on business and visiting
friends this week.

Mrs. C. Freed enjoyed a visit from
her sister Mrs. W. Trenholm of
Wildwood during the past week.

Spr. Oldham and family motored
home from B.C. last week where
Seth has been stationed at Chilliwack
Camp. They report a very enjoyable
trip.

Mrs. Leon Bean entertained a few
friends at tea on Saturday afternoon
in honor of her birthday.

Mr. and Mrs. Ray Sharp of Nan-
ton, motored here to attend the
funeral of the late Mrs. W. Morrow
and will visit with relatives while
here.

Mrs. C. Ockenden from Victoria,
B.C. has been visiting with her
sister Mrs. C. Freed and left Monday
night for Toronto to see a daughter
there.

Mimes Margaret and Helen Tolmie
are enjoying a holiday at home from
their duties in the Bank of Montreal
in Lethbridge.

After attending another term at
University Miss Ruth Rume is en-
joying a holiday with her family.

Mr. and Mrs. Vernon MacNally
and family of Edmonton are visiting
with relatives in town.

Mrs. E. M. Peterson left for the
city on Saturday for a few days on
business.

Telegrapher Marvin Jackson, R.C.
N.V.R. arrived home on Thursday
last week from duties in Bernuda
and other points and will be receiv-
ing his discharge in the near future.

Miss Eileen Taylor and Mr. Gor-
don Huntingford spent the week-end
in Chauvin as guests of Mr. and Mrs.
L. D'Albertansen there.

Mr. and Mrs. D. Pawsey are enjoy-
ing a visit with their son F.O. Phil
Pawsey who has just recently recent-
ly returned from overseas.

Mrs. Mary Ganderton was a busi-
ness tripper to the city for a few
days last week.

Miss Irene Seale of Edmonton is
spending a holiday with her parents
Mr. and Mrs. E. A. Seale, Battleview.

After a holiday spent with her
parents in town Miss Elned Dahl re-
turned to her duties in the Treasury
Branch at Killam.

Mr. Walter Huntingford spent the
week-end in the city on business.

Congratulations are in order for
P.O. M. E. (Morris) Fraser, R.C.A.F.
recently returned from overseas who
has been awarded the D.F.C.

Mr. Ernest Trotter returned home
from B.C. last week having been
called there due to the illness of his
sister.

Sgt. Ted Carrier, R.C.A.F. is
spending a leave visiting with the
Tolmie family in town.

Mrs. J. Donaldson left for Edmon-
ton on Tuesday where she will re-
present the local W.I. at the Pro-
vincial W.I. Convention to be held in
the MacDonald Hotel this week.

Co., Vegreville. 23-5

Mrs. D. Purcell and infant daugh-
ter are expected to arrive home
from Edmonton this week.

Mrs. Chas. Ogg and little daughter
Monica of Edmonton are visiting
Mrs. Ogg's mother Mrs. O. Nelson
and other relatives in town this week.

Mrs. Ben Luddett is a patient at
the local hospital these days and we
wish her a speedy recovery.

Mr. Clifford Saville of Hardisty
was a visitor in town the first of last
week.

Sgt. Carl Tory, R.C.A.F. has re-
turned from overseas and was a
visitor in town one day this week.

In October, 1944, 87.2% of Cana-
da's males and females 14 years of
age and over were either in the
armed forces or gainfully employed.
The strength of the armed forces
was about 777,000.

There are 315 labour-management
committees functioning in Canadian
plants that represent a total of
287,000 workers. While membership
is, heaviest in war plants, consid-
erable numbers are included in other
industries.

HEATH

Several cars of Heath Mission mem-
bers accompanied Rev. Maxwell to
Maradan on Sunday afternoon for the
dedication service of the gospel mis-
sion there.

Mr. and Mrs. Davis, Sr., and Miss
Alberta Davis and Mr. and Mrs. Geo.
Birtles and family spent Empire Day
fishing at Arm Lake and visiting
their home place near by.

Heath elevators are again closing
on Saturday afternoon for the sum-
mer months and we hear the Post
Office will also be closed on Satur-
day afternoon except for a short
time when the afternoon train comes
in.

A few of the Heath school, child-
ren were able to attend the celebra-
tion at Wainwright on Empire Day,
but because of the busy season for
farmers most of the children were
unable to go.

GILT EDGE

Too late for last week
Congratulations to Mr. and Mrs.
Earl Plaxton on the arrival of a son,
Collin Earl.

The Gilt Edge Welfare Club met
at the home of Mrs. P. Teeter with
14 members and one visitor present.
Roll Call was answered with "Tri-
butes to Mother". A contest was
presented by Ella Plaxton and won
by Lois Olson.

The next meeting is to be held at
the home of Mrs. O. Olson.

A nice lunch was served by the
hostess.
Mrs. Andy Woods visited her sister
Mrs. Harold Teeter last week.

Miss Lorna Reid is now at Mrs.
Dave McLennons, who we understand
is getting well again after her recent
fall.

Mrs. Donald Wilkins and daughter,
Judy, visited Mrs. Elwood Plaxton
last week.

We welcome Mrs. Ross Myers
who arrived here from England last
week.

Mrs. Lorne McLennan and son
Larry are visiting her parents, Mr.
and Mrs. Stuart Plaxton for a few
days.
